

Sinclair Broadcast Group's recent actions have illustrated the dangers to localism caused by media consolidation and it has got to stop.

The United States has now been bought by big business and dictates to the citizens how we should think and feel about electing our president. We are not mindless. We can make reasonable choices without this garbage be shoved down our throats each and every day. America is becoming more of a dictatorship than a democracy by other peoples views being the only views to take in this society. Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard. Thank you.
